

## About Us

Woerner Industries, Inc. has manufactured and installed pew seating for over 85 years. We are located in Rochester, New York and have a history of working with churches in satisfying their seating needs.

While we have some of the most modern woodworking equipment available, we still employ many of the same manufacturing techniques and quality standards used by our craftsmen 50+ years ago.

We specialize in solid wood pews, with wood or padded seats and backs. We offer a complete line of pews and accessories. All of our designs can be customized to meet your needs. Pews are available in Northern red oak (standard), white oak, cherry, maple, birch, walnut, and mahogany. Upholstered seats and backs are removable for later reupholstering.

Many of our projects involve custom pews. We specialize in projects which require refurbishing and/or manufacturing new pews to match existing pews.

## Wood Finishes

Light Oak

Harvest Oak

Fruitwood

Amber

Medium Oak

Rosewood

Limed Oak

Antique Cheery

Please Note: Actual fabric could exhibit some variation in tone due printing procedures and no guarantee can be made of an exact match.

Actual fabric samples are available upon request. Additional fabrics are available upon request.

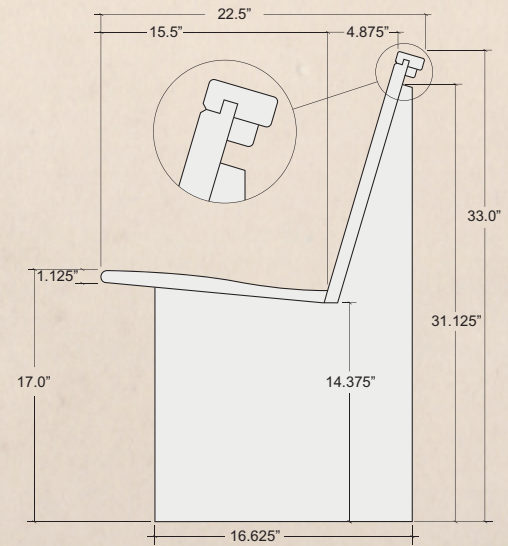

Pew seats, backs and ends can be manufactured in various combinations to meet your specific requirements. We offer three basic pew body designs which follow:

### 101 Solid wood seat and back

Seats are machined from 6/4 lumber (1.50" raw lumber thickness). Final thickness will be approximately 1-3/16". Seats have a scooped out contoured area for comfort. Boards are glued up with tongue and groove construction. Seats are reinforced underneath with a 1.5" thickness x 2.5" height lateral brace.

Backs are machined from 4/4 lumber (1" raw lumber thickness). Final thickness will be approximately .75". Boards are glued up with tongue and groove construction. The cap rail is fastened to the pew back with tongue and groove construction.

### 102 Padded seat and wood back

Seats are manufactured with a .75" veneer core plywood base with solid poplar rails across the front and back for support and anchoring. Foam is 4" thickness with 2.6# density and 45 - 48# compression ratio. Many fabrics are available for a covering.

Backs are machined from 4/4 lumber (1" raw lumber thickness). Final thickness will be approximately .75". Boards are glued up with tongue and groove construction. The cap rail is fastened to the pew back with tongue and groove construction.

### 103 Padded seat and back

Seats are manufactured with a .75" veneer core plywood base with solid poplar rails across the front and back for support and anchoring. Foam is 4" thickness with 2.6# density and 45 - 48# compression ratio. Many fabrics are available for a covering.

Backs are machined from 4/4 lumber (1" raw lumber thickness). Final thickness will be approximately .75". Boards are glued up with tongue and groove construction. The cap rail is fastened to the pew back with tongue and groove construction. The front of the pew back is covered with 1" foam and fabric which are removable for recovering at a future date.

## Edge Detail

## Pew Ends

Pew ends are solid red oak, 2” thickness with butcher block or two-ply construction. Full pew ends have a separate 3” high foot glued, doweled and screwed to the pew end. This provides the support for anchoring to the floor. Pew ends are anchored to the floor with concealed fasteners, one per end. Two anchors are also available upon request.

Pew supports are solid red oak, two-ply 1.5” thickness. Each panel is .75” thickness.

Following are standard Woerner pew ends. Custom designs are available upon request.

Interior: 18" w x 6-5/8" d, 2-1/4" h

**255 Hymn Book Rack**  
Self cleaning style.  
Interior: 18" w x 2-1/4" d

**257 Hymn Book Rack**  
Interior: 20" w x 2-1/4" d

**4100 Card Holder**  
6" w x 1" d, 5" h  
Opening for card:  
3-1/2" w x 5/8" d, 4" h

## Pew Kneelers

Most of our projects include wood frame kneelers, but we also offer metal frame kneelers if the need arises. Wood kneelers have 1" thick ends and 1-1/4" 6# density foam over a 3/4" plywood cushion board. Standard depth on kneeler pads is 5" with a height from the floor of 7-3/8".
